POOL ROVER S2-40

ROBOTIC POOL CLEANER

**POWERFUL SUCTION.
FAST CLEANING.
ULTIMATE SIMPLICITY.**

Featuring a new, patented linear jet and low profile design, the Aquabot® Pool Rover Series 2 40 delivers a dramatic boost in suction power and water throughput while speeding up cleaning time. This means the Pool Rover 40 picks up even more dirt, debris and fine particulate down to 2 microns while cleaning faster! The Pool Rover 40 is designed for ALL above and in ground pool surfaces and shapes, and its rugged wheels are great for abrasive surfaces such as in gunite pools. Pool owners will especially appreciate the ultimate simplicity and out-of-the box ease-of-use of the Pool Rover 40 with one button plug and play operation, top access EZ-Clean filter bags, lightweight easy handling and extremely low maintenance.
